3rd International Conference on

PROBLEMATIC SOILS

7 – 9 April 2010
Adelaide, Australia

CALL FOR PAPERS

Organised with the support of:

- Australian Geomechanics Society (South Australian Chapter)
- University of South Australia
- Commission 18, Problematic Soils, International Association of Engineering Geology

Managed by:

- CI-Premier Conference Organisation, Singapore

3rd International Conference on
PROBLEMATIC SOILS

7 – 9 April 2010, Adelaide, Australia

INTRODUCTION

The conference aims to provide an opportunity for dissemination of current practice on recent research and industry developments in the geotechnical engineering of problematic soils. Specific objectives are:

- To highlight the importance of understanding the geology and geomorphology of sites;
- To identify and address the difficult ground conditions encountered;
- To present methods (through case studies) of in-situ treatment of problematic soils, and
- To develop a more sound engineering approach for problematic soils.

The conference welcomes contributions from all areas related to geomorphology, engineering geology, geotechnical engineering (including modeling, laboratory and field assessment, footing design and remediation techniques), soil-structure interaction, building and infrastructure problems and others, associated with the many problematic soils encountered across the globe. Such soils have and continue to present challenges to engineers the world over. The ultimate aim of this conference is to bring together experts from different disciplines and countries to provide a forum to exchange ideas and discuss the latest developments

ADELAIDE

Festivals and food. Arts and culture. Shopping and sports. This is Adelaide - the city where there's always something on.

Whether you want to party or relax, South Australia's capital has it all. With spacious boulevards and vibrant inner-city districts, sophisticated architecture and lush gardens, it's the perfect venue for all sorts of activities - big or small.

You might want to immerse yourself in the culture of the city's North Terrace, with its museums and libraries, or wine and dine in one of the many restaurants in Gouger and Rundle Streets.

CONFERENCE THEME

Topics:

- Peat and organic soils
- Volcanic Soils
- Expansive Soils
- Collapsible Soils
- Carbonate rich soils
- Lateritic soils
- Residual soils
- Tailings
- Deep fills
- Dispersive soils
- Unsaturated soils

Technical papers should deal with:

- Identification of problem soils
- Test methods
- Engineering geological aspects
- Avoiding distress to infrastructure
- Case studies

CALL FOR PAPERS

Submissions are now invited and abstracts (of about 400 words, within one A4 page) may be sent to the Conference Director, Er John S Y Tan at cipremie@singnet.com.sg

Please note that it is part of the requirements of submission of abstract that the Author or one of his/her co-authors will present the paper at the conference; and that all papers to be included in the conference documentation must be registered.

ALL PAPERS ARE PEER REVIEWED BEFORE ACCEPTANCE

IMPORTANT DATES

- Abstract received by 1 September 2009
